Wiring diagram

Software features

- Support 485 and TCP/IP controllers, all of our access controllers use one software.
- Have all of functions that professional access control software possesses.
- Multi-language is possible. Customer can add new language easily.
- Real-time color show each point's status.
- Support records showing in full screen, and show user photo. And support sound.
- Support two database: MS Access and MS SQL server, MS Access as default.
- Support the authority on access controller, lift controller, locker controller under the same operation.
- Support operations through software.
- Support NO or NC status of random defined outputs.
- Start up software time synchronization, and just click mouse two times to update controllers.
